"A Message to Garcia"

Some years ago the late Elbert Hubbard wrote what he himself termed "a literary treatise," entitled "A Message to Garcia." Did you ever read it? If not, get a copy and do so; it will repay you. Hubbard wrote it in an hour and evening and a couple of days. He himself said: "The thing leaped out from my heart, written after a trying day, when I had been endeavoring to train some derelict delinquents to shun the comestive state and get religious." In the course of a few years "A Message to Garcia" has translated into every known language and over forty million copies had been printed. And its sale still continues.

The story itself is brief; it is the wonderful lesson it conveys that counts. When war broke out between the United States and Spain over Cuba, it was very necessary for the United States Government to communicate quickly with the leader of the Cuban insurgents. General Garcia was somewhere in the mountain fastnesses of Cuba—no one knew where. No mail or telegraph message could reach him. The President must secure his co-operation, and quickly. But how?

Someone said to the President, "There is a fellow by the name of Rowan who will find Garcia for you, if anybody can." Rowan was sent for and given a letter to be delivered to Garcia. The fellow by the name of Rowan took the letter, sealed it up in an oilskin pouch, strapped it over his heart, in four days landed by night off the coast of Cuba from an open boat, disappeared into the jungle, and in three weeks came out on the other side of the island, having traversed a hostile country on foot, and delivered his letter to Garcia.

Now the point of this story is not the bravery of the man in this risking his life, for thousands of men would unquestioningly run equal or greater risks; the point is that Rowan did not stop to ask a multitude of questions, such as, "Who is Garcia?" "Where is he to be found?" "What does he look like?" "What do you want him for?" "Is there any particular business to be done?" "What is the purpose of this?" "What is that which was required of him to deliver it." He had one clear-cut job to do, and he proceeded to do it.

How many of the countless millions of men and women who are employed in shops, factories, offices, and on the farms, are possessed of Rowan's characteristics? How many display the same loyalty to a trust, act promptly and without question, concentrate their energies on the task before them; in a word, do the thing—"Carry a message to Garcia." The respectable fact is that not one in ten do so. Yet it does not call for any special training, or ability, but merely the exercise of will and a determination to do and win.

As Elbert Hubbard pointed out in his little booklet, General Garcia is dead now, but there are other Garcias to whom messages have to be delivered daily. No man who has endeavored to carry out an enterprise where many hands were needed, no man directing a large business, but has been self-right about his duties, objecting, claiming they were not his, for his inability or unwillingness to concentrate on a thing and do it. Slothful assistance, foolish inattention, drowsy indifference and half-hearted work perform the rule; and no man succeeds, unless by hook or crook or threat he forces or bribes other men, or, maybe, God in His goodness performs a miracle, and sends him an Angel of Light for an assistant.

Today the average employee is more concerned about working as few hours as he possibly can manage to get away with and still hold his job. His ambition seems to be to get out of his work, but to collect from his employer as large a wage as possible in return for what he gives as little as possible. If employers grant an 8-hour day, the employees of this day and generation immediately insist on a 9-hour day. If they are not granted a 9-hour day, but they still want an 8-hour day. They insist upon the observance of all holidays, but demand to be paid just the same. If asked in an emergency to do a piece of work which ordinarily does not fall within their duties, they object, claiming they were not hired for that purpose. Fellows "by the name of Rowan" seem to be mighty scarce these days, and the lack of initiative displayed by the average employee is simply appalling, coupled with an absolute unwillingness to make his employer's interests his own.

This incapacity for independent action, this moral stolidity, this infirmity of the will, this willingness to cheerfully catch hold and lift—these are the things that are the bane of the future and make thoughtful men and women reluctant to advance certain movements which might be mighty for the benefit of all. If men will not act for themselves, what will they do when the benefit of their effort is for all?

It is the men of the Rowan type who are getting on in the world, while these others remain the willing slaves of the "walking bosses" of the Labor Unions. In self-protection the employee is forced to constantly resort to a weeding-out process, and no matter how good times may be, the incapable and self-righted are out of work, having been replaced by others; and when times are hard the sorting-out process is done faster—but out and forever out the incompetent and unworthy go.

But there is always an opening, steady employment and a bright future for men and women who can be trusted to "Carry a message to Garcia" whenever they are called upon to do so.

Alberta Highways

Alberta Link of the Trans-Canadian Road Will Be Completed This Year.

Huge sums of money are being spent on road construction in Alberta this season. The Alberta link of the trans-Canadian road will be completed this year. The greater part of the road work in the province this season has been in the construction and re-paving of the trunk road, but next year branch and district roads are to receive the most attention, and by 1923 it is expected that the province will have a net work of highways that will be second to none on the American continent.

The Alberta Government is being assisted in the construction of the trunk roads by a grant of forty per cent. of the cost of these roads which the Dominion Government is making. The work reaches a certain standard which the Dominion Government has set.

Marketing Western Wheat

Dr. Magill Does Not Anticipate Difficulty From U.S. Tariff.

Dr. Magill, secretary of the Winnipeg Grain Exchange, interviewed at Ottawa was of the opinion that there will be no difficulty in marketing the western wheat crop, despite the United States tariff. Dr. Magill indicated that English buyers are active in the market for vast quantities of Canadian grain, and that the United States will not buy large quantities in any event.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The combination of heat, steam, and humidity, which are the breeding grounds for cholera, infantum, colic, diarrhoea and dysentery, comes on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on, to see to it that the child is not allowed to get worse. The stomach and bowels are absolutely safe. The mother should keep the child's bowels in good order by giving him or her by mail at 25c. a box from The Williams Medicine Co., New York, N.Y.

Read The Advertisements

Make Your Purchases From Your Merchants and Help Stimulate Business.

The publishers of this paper draw your attention to the advertising columns, and particularly to the advertisements of the local merchants. These merchants have invested their money in goods to satisfy the needs and desires of us all.

Their enterprise is a distinct service to our community. For this reason we should buy from them to the best of our ability and in so far as our needs and judgment of value dictate.

Then, too, the general commodities advertised in our columns are worthy of consideration. If the dealer's goods are really good, they should be advertised. By doing so the cycle of trade is kept alive, and the community is benefited. We repeat: read the advertisements.

Apple Crop Expected to Be Huge.

Everything points to a record apple crop in British Columbia this year, and if nothing unforeseen happens, the fruit markets are assured of a good supply of high-grade apples, according to J. A. Grant, British Columbia fruit commissioner for Alberta. Mr. Grant estimates that 5,000 cars of apples will be shipped out of British Columbia this year, which is an increase of nearly 100 per cent. over last year's output.

Sauces For Food

BY LORETTA C. LYNCH

An Acknowledged Expert in All Matters Pertaining to House Hold Management.

If you have the very best and choicest of foods, you may not need to know much about sauces, but sauce is the making of less expensive cuts of meat and other foods, and people frequently prefer cuts of beef with its delicious brown sauce to the more expensive sauceless porthouse.

Basic Recipe For Sauce. Two tablespoons of fat—2 table-spoons of flour; 1 cup liquid. The fat may be butter or any of the vegetable fats or the dripping of meat and so on. The liquid may be either stock (water in which meat or fish or vegetable was cooked), or strained tomato or milk or water. If salt is to be used, generally one-fourth teaspoon is sufficient for one cup of liquid.

There are several ways of putting the ingredients for a sauce together. The fat and flour may be mixed in a pan and the flour added and cooked until the mixture is frothy through-out. The cold liquid is then added and stirred constantly and vigorously until the mixture is smooth, thick and boiling.

Sauce may also be made in a double boiler. This is especially desirable when time is no object and when milk, which scorches easily, is used. In this case the fat and flour is usually better. It is beaten to a cream and the flour is then beaten into it. The milk is added and the sauce is stirred over but water until thick and smooth.

Drawn Butter.

Melt two tablespoons of fat in a pan and add to it two tablespoons of flour and one-fourth of a teaspoon each of salt and pepper. Cook until frothy and add one cup of cold water. Cook, stirring until thick. Then gradually add about two table-spoons of butter, bit by bit, until it is absorbed. If the sauce is at all lumpy, strain it.

Caper Sauce.

Make a cup of drawn butter, using the broth from boiled lamb or mutton for the liquid. When ready to serve add two tablespoons of capers drained from the liquid in the bottle. A teaspoon of lemon juice may be added if desired. A similar quantity of mustard may be substituted for the capers.

Egg Sauce.

To a cup of brown butter add a hard-cooked egg, chopped. This sauce is good served with boiled fish.

Makes Breathing Easy.

The construction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, is relieved by Dr. J. D. Kellogg's Asthma Remedy. It is a natural remedy, which is known far and wide for its complete effectiveness even under very severe conditions. It is not untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Match-Making at Nelson

Soft White Plot of the Kootenays Is Found Suitable for Making Matches.

Very apparently, the soft white pine of the Kootenays is being launched at the inland city. This is a plant for turning out "match blocks" to be shipped east where various match factories will buy the material for turning out matches. It is said that by the end of July this season a plant will be in operation at Nelson, giving employment to from thirty to forty operatives. W. W. Powell, formerly of Spokane, is the principal in the new industry and he estimates that he will be shipping about a car a day of the product to the eastern market.

Filming "The Conflict"

The Universal Film Company of Los Angeles, Cal., are working at Bull River, near Lake Windermere, B.C., filming a picture based upon the celebrated novel, "The Conflict." There are 125 men in the cast, and the work is expected to occupy two months, at a production cost estimated at \$30,000.

Her Improvement Is Now Talk Of Friends Says Toronto Woman

"Tanla has certainly had a good change in my case to show what it can do, for I surely had a long, hard struggle and had just about tried everything," said Mrs. Mary Richards, 251 Ashdale Ave., Toronto. "I have been in a badly run-down condition ever since I had pneumonia six years ago. My stomach was nearly always out of order. My appetite was very poor and I had to be very careful about what I ate, as I suffered terribly from indigestion, bronchitis and pains in my chest. My sleep was never sound and I had a tired, worn out feeling all the time. I had dreadful headaches and weak spells and had fallen off in weight."

What It Costs To Make Shoes

Labor Averages Only One Dollar A Pair.

If shoe workers work for nothing it would not affect the price of the shoe more than a dollar a pair. This is the answer of General Organ, E. W. O'Dell, of the Boot and Shoe Workers' Union, to the charge that labor costs were preventing a reduction in the price of shoes.

"The average labor cost in a pair of boots or shoes is no more than a dollar, the maximum being \$1.25 in a \$16 pair," he said.

For Sprains and Bruises—There Is Nothing Better

It is likely to sink at her moorings in Portmouth Harbor, said the Marquis of Milford Haven at the meeting of the Council of Naval Research. It was suggested, he added, that a cement or steel casing round the hull might be made, and as the Admiralty has no funds available, something would have to be done by private help.

Nelson's Ship In Danger Of Sinking

Steel Casing Around Hull Would Keep Victory Afloat.

Nelson's old flagship, the Victory, is likely to sink at her moorings in Portmouth Harbor, said the Marquis of Milford Haven at the meeting of the Council of Naval Research. It was suggested, he added, that a cement or steel casing round the hull might be made, and as the Admiralty has no funds available, something would have to be done by private help.

Reducing Strength of Forces.

Canada is reducing the strength of its permanent force by ten per cent. in the Department of Militia and Defense. This step, taken on the ground of economy, will mean there being a maximum of 3,600 officers and men against 4,000 as hitherto. Commanding officers were instructed to select those for discharge who will suffer the least hardship.

For Sale in Winnipeg.

The third successful Winnipeg auction for sale took place on the 5th July, when 250,000 pelts were disposed of to 500 buyers from various large Canadian cities. The fur was sold in 413 lots, and a low estimate of aggregate value is over \$300,000.

Sending Photos By Phone

One of the Latest Methods of Science Now in Use.

The machine recently perfected for transmitting photographic records over a telephone wire is to be used by the police departments in Europe for sending finger-prints of suspected criminals. By this means, when a man is arrested in one place, his photograph can be sent to any other place, it will be possible simultaneously to dispatch his finger-prints to London, Rome and other cities and make the police for any details they may have regarding previous convictions.

Big Increase in Price of Gas

On Wednesday the Gas Arbitration Board, which has been busy carrying on its investigations at Calgary for several weeks past, submitted its report to the Calgary city council. The experts composing this arbitration board propose that all except very large consumers shall have their rate increased from the present 35 cents per thousand feet to 55 cents with a discount of 5 cents per thousand for prompt payment. It is further proposed to add a service charge of \$1.00 to all consumers of \$100 per month to all consumers. Large consumers to get a lower rate.

The report concludes with the recommendation: "We would call attention to the fact that the cities and towns on the line to the south of Calgary will not be affected by this report. This condition of discrimination should be remedied."

Claresholm of course is one of towns to which it is proposed to apply the aforesaid remedial measures.

On the basis of the gas consumption in Calgary alone, without taking into the count the other cities and towns, the board's award would increase the gas company's revenue by about half a million dollars a year. If the company should increase its rate, it would mean a much larger increase in revenue.

You Save Every Way—

Quality maintains economy.
No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

WE GIVE IMPERIAL Polarine MOTOR OILS CRANK CASE SERVICE

IMPERIAL Polarine MOTOR OILS

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble, just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality *does* maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this guide exclusively and you will get the years of service and satisfaction which you have a right to expect from your car.

Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED
Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

Not even Imperial Polarine Motor Oils will lubricate properly if mixed with dirt and dust. Your crank case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign to the left will clean your crank case in an expert and workman-like manner. Such dealers use Imperial Flushing Oil, the modern scientific cleaning agent. Empty crank-case service regularly and you will save hundreds of dollars every year.

Winnipeg Beach

Winnipeg Beach, 50 miles from Winnipeg, is an ideal summer resort. Thousands of Winnipeg folks and folks from Central Canada spend their summer vacation there.

The picnic grounds are ideal, sheltered as they are with beautiful trees, and equipped with tables for serving meals, with hot and cold water available at all times. The grounds are laid out in such a manner as to be able to take care of every outdoor game, with rapid entrances for joy races, baseball diamonds, etc.

The Beach is one of the best and safest in North Western Canada; commodious and modernly equipped bath-houses, operated by courteous attendants; row-boats, canoes, and motor boats are for hire at reasonable prices. The Cafe and Empress Hotel is this year under the management of Mr. J. W. Taylor, formerly of the Hotel Chamberlain of Old Point Comfort, Virginia, and he is prepared to cater to parties of any size.

and submit menus for approval upon request.

Attractions of the beach are: Giant Roller Coaster, The Electric Track in charge of capable attendants for the amusement of children; picture theatre showing first-run films, at popular prices, while the refreshment house are stocked with the very best in soft drinks, nut-butter, etc. and sold at Winnipeg prices.

Clareholm Local News

Mary Pickford, at Rex theater August 19-20.

Mrs. Swain and Miss Leonard are visiting at Granum this week.

A baby was born to Mr. and Mrs. Neil Gray of Meadow Creek on August 12th.

Mary Pickford in "Suds" coming to the Rex theater Friday and Saturday, August 19-20.

Mr. Dewey Maxwell, is now the guest of his parents, Mr. and Mrs. G. R. Maxwell of Clareholm.

The Lethbridge Herald is entertaining its newsboys this week. Lloyd Lomheim left on Thursday to take in the festivities.

Through an error on the part of the Winnipeg booking office the Douglas Fairbanks and Mary Pickford film dates were transposed. Mary Pickford comes on August 26-27 instead of two weeks earlier as first announced. Mary Pickford in "Suds" will positively be at the Rex on Aug. 26-27.

C. B. Harrison, former resident of Clareholm but now resident of Hanna, is in town for a period of two weeks, visiting his home. He reports having fine times up there, but overworked at times. He says crops are pretty thin in some districts, but appear to be of average yield. What we would like to know is why he did not bring the other party with him, as we know it is a very serious case; but yet there is time to explain.

There was a heavy rain fell on Monday afternoon, the precipitation being nearly an inch within half an hour. Thursday was showery. With these exceptions the week has been favorable for harvesting. A little threshing has been done, but threshing will not be general for a week yet.

Remember that to get the name of the wife, husband, son, daughter, father or mother of a person assessed upon the town assessment roll, included in the voters' list, application must be made to the town secretary-treasurer before the end of August.

Novel Use For German Indemnity

Britain May Use Her Share to Help Overseas Settlers.

The parliamentary empire development committee is considering a novel scheme of overseas development. The proposal is that part of the indemnity which Britain is to receive from Germany should be placed in a fund out of which loans would be made to suitable men and families to enable them to settle in the overseas dominions. Next December, Germany will receive £250,000,000 worth of German bonds, and the idea is that £50,000,000 worth of these bonds should be guaranteed by the British Government and made the basis of advances to overseas settlers, such advances to be secured by mortgages on properties acquired and developed by the settlers.

Sentenced To Death.

A man eighty years old, of Milton, Ont., says he cannot remember when potato bugs were so numerous. They are in patches of Milton in millions and people are working day and night trying to destroy them.

"Owing to the rapid increase of the school population of the city it has been found necessary to initiate the 'piston system' in Calgary schools. When the fall term opens this plan will be adopted in two of Calgary's schools.

Pirate yams and reports of mysterious ships were lurking along the trade lanes of the North Atlantic, may be explained by the discovery of "blockade runners" that have been landing valuable cargoes of contraband liquor on the Jersey coast.

Mr. Lloyd George declares there is no truth in the report that King George had stepped in to untangle a complication between Great Britain and the United States over the proposed Pacific Conference, before the recent action by the Washington Government moving for the conference.

LOST 29 POUNDS DYSENTERY WAS THE CAUSE

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and, after collapse that often terminate fatally. To check the unnecessary discharge without bringing on constipation you should use that grand old remedy with a reputation extending of 76 years.

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mr. G. H. McVay, Mayer, Sask., writes:—"About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 lbs. when I took sick and 125 when I got it stopped. I think I tried every medicine on the market, but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and my trouble did it. I think there is nothing like it for diarrhoea or dysentery. I always keep a bottle on hand, and it does not know when he will need it." Price \$5 a bottle; put up only by Dr. T. M. Allen, Co., Toronto, Ont.

Oil Has More Steam Than Coal.

The amazing increase in the use of oil for fuel is not surprising when it is considered that, weight for weight and with proper burners, the oil gives out more heat than coal. It is easier than coal to handle, it obviates dust and dirt, makes little smoke and no ashes and can be lighted instantly and controlled absolutely.

IS YOUR NOSE PLUGGED? HAVE YOU CATARRH?

If Subject to Colds, Here is Real Good Advice.

Don't neglect your stomach with coughs, colds, sneezing, and watery eyes, and passages that are subject to colds and catarrhs. It is to be noted that CATARRH, which is a cold in the nose, is the leading cause of all the troubles that afflict the human race—a cold in the nose, which is a cold in the head, and is the cause of all the troubles that afflict the human race—a cold in the head, and is the cause of all the troubles that afflict the human race.

Placing The Crowd.

The British Government declares it is abandoning war subsidies to agriculture. It would be worth \$100,000,000 or \$150,000,000. But it is making a grant of £3 per acre for wheat, and £4 for oats this year, the cost of which will be \$5,000,000, and of \$75,000,000. This is one way of trying to placate the economy crowd—Toronto Mail and Empire.

The worms that infest children's clothing are a great nuisance. They are found in the stomach and those that are found in the intestines are a great nuisance. They are found in the stomach and those that are found in the intestines are a great nuisance. They are found in the stomach and those that are found in the intestines are a great nuisance.

Conditions Good in Germany

Are hopeful of Paying Indemnity, Says Canadian Officer.

The German people are hopeful of being able to pay their war indemnity and indications are that they will be able to do so if given time, in the opinion of Major Spencer Reple, controller of the clearing office in Canada, who is handling currency property and reparations.

Major Reple has just returned to Ottawa after spending some time in England and Germany. In regard to conditions in Germany, Major Reple stated that he found very evidence that all factories were running full blast all night and German agricultural prospects were excellent.

Has Value at Bank

J. P. Morgan Speaks of Importance of Personal Character of a Borrower.

J. Pierpont Morgan, in discussing the question of the making of loans, is reported to have said that he had loaned a million dollars to a customer who had no visible assets. Mr. Morgan was advanced on the character of the borrower.

A good character is worth more than a bank account. A bank account cannot make a good character. Your character is what you bank upon your life through the principles for which you stand in your everyday life.

Peevish, pale, restless and sickly children are the condition to which Mother George's Worm Expeller will relieve them and restore health.

WHEN WOMAN HITS THE TRAIL IN THE CANADIAN ROCKIES

The outdoor girl—and her name is legion—knows almost as much about the trails, camps, mountains and fishing of the Canadian Pacific Rockies as mere man. Every summer Banff and Lake Louise are thronged with members of the fair sex who hit the trail to view the beauties of lakes and streams where the trout hide, climb moon-taint and camp for days near to Nature's heart. Safeguarded by expert guides they learn to ford streams, fish and shoot, while there are real Swiss guides from the Alpine Club last summer.

Also overseas to show the way to the summits of majestic mountains. When they ride, climb and camp as well as their brothers, husbands or sweethearts and nobody thinks anything about it—just even Mrs. Gertrude Besham, an English girl, was the first of her sex to reach the summit of this great peak, the Matterhorn of the Canadian Rockies. Both were assisted by Swiss guides.

Several made the ascent during the camp of the Alpine Club last summer.
